Nebraska School Weatherization Program

Since the program began, 80% of the schools that have applied for grants received funds.

Apply now for over $4 Million in School Weatherization Funds

STATE OF NEBRASKA

NEBRASKA ENERGY OFFICE
BOX 95085, LINCOLN, NEBRASKA 68509
PHONE (402) 471-2867
1. List the energy conservation measures (if any) that have been implemented in the building and approximate completion dates.

2. Energy Consumption History. (Complete the energy consumption history, using the most recent 12 month period.)

Alternative Fuel Supplier ___________________________ Phone ___________________________

Electricity Supplier ___________________________ Phone ___________________________

(complete reverse side.)
Building Outline

Sketch the general shape of the building. Indicate the original structure and any additions or surrounding buildings owned by the school district.
Weatherization Project Description

1. Describe the existing condition and/or problem that the proposed weatherization will correct.

2. List what the grant funding will be spent on and what area of the building will be weatherized.

3. Weatherization Start Date

4. List the estimated annual savings resulting from the proposed weatherization. (Adequate documentation to support these savings must be included in this application.)

Million BTUs

Dollars

5. Estimated Project Cost: $__________

On reverse side, list all costs to be incurred in completing this project. Current Construction costs and wages must be reflected. In-kind services must be listed in appropriate area and included in the total project cost.
